

Non-Public School for Students With Special Needs

UHS KEYSTONE SCHOOLS, VENTURA

UHS-Keystone Schools, Ventura provides a wide spectrum of educational services to special education students from 6–22 years of age.

The UHS-Keystone Schools, Ventura team works closely with the student, parents and special education professionals to design and implement an Individualized Education Plan (IEP) to meet the educational needs of each child. The school's programs also address the specific behavior and transition needs of each student. Significant classroom resources are available to each student to maximize the learning experience. The plan supports each child in providing the needed behavioral interventions to do well in school and in the community.

Daily instruction on life and social skills provides a solid foundation for the

challenges of adulthood. Transition services and social skills training are provided each day. A WorkAbility program gives students the opportunity to work on campus and seek off-campus employment.

We are committed to admitting and helping *every child*, including the difficult to place students, whatever the challenges a child needs to overcome. Finding hope for children who are considered hopeless by others is something we do every day. Because, at UHS-Keystone Schools, Ventura, kids always come first, and we see hope in every child.
